LAYOUT S = Special Layout. Number of tracks and panels need to be selected, though a specific layout needs to be given according to the direction of how the panels move along the track. See Notes.

- NOTES:**
- O = Wand
 - X = Stopper
 - L = Left direction
 - R = Right direction
 - W = Wand position
- * When using Layout E & F there must be an uneven number of panels.
- 3 track – 5 panels
 - 4 track – 7 panels
 - 5 track – 9 panels
- Layout A, B, C & D.... 1 wand
Layout E & F..... 2 wands
