### **CARE INSTRUCTIONS - FABRIC BLINDS (INCLUDING, ROLLER BLINDS, VERTICAL BLINDS, PANEL GLIDES)**

To remove dust from the blind surface we recommend vacuuming regularly using low suction, or a suitable soft duster or non-coloured cleaning cloth. Avoid pulling or stretching the fabric. Always remove dust from the fabric before cleaning. Treat spills and stains as soon as possible. Wipe gently with a slightly damp cloth to remove any liquid or matter from the fabric surface. Do not use a coloured cloth. It is important to do a test clean on the least visible area of the blind. In case of stains, clean with a solvent free cleaner, such as a mild clear dishwashing detergent applied to a clean cloth or sponge. Do not use any abrasive substances, or any solvents that may deteriorate any PVC coatings. Do not saturate the fabric with water or other cleaning liquids. Allow the blind to dry completely before rolling/folding up the blind.

### **CARE INSTRUCTIONS – VENETIAN BLINDS**

Use a suitable soft duster or non coloured cleaning cloth. For Timber Venetians, wipe gently with a damp cloth to remove any dust, liquid or hard matter from the blind surface. Do not use any abrasive substances, or any solvents that may deteriorate any lacquered coatings.
